

# ASSEMBLY TECHNICIAN

Optics11 develops sensor systems and instruments based on optical fiber technology. Assembly of these high-tech and precision mechanical instruments is done in Amsterdam. We are looking for a hands-on assembly technician who has experience with electronics and precision mechanical assembly and testing.

the ideal candidate:

- Has an MBO or BSc degree in electronics or related, or has relevant work experience in this direction
- Have experience with soldering SMD components
- Has a good command of the English language in speech and writing
- Can read electronic diagrams
- Has experience with measuring equipment multimeter, oscilloscope, function generator etc.
- Has experience with mechatronics
- Is patient
- Is precise and can work in a structured way
- Has broad technical interest
- Experience with optical fiber optic systems is an advantage

Do you want to:

- Learn a lot in a short time
- Being part of a dynamic development and production team
- Work in a challenging international environment

And are you full-time available?

Do you think that you are a good match for Optics11? Let's get in touch!
